CONDITIONS OF TRAVEL

This Narrow Gauge Train is operated by "The Port Elizabeth Apple Express" (PEAE) and neither TRANSNET FREIGHT RAIL (TFR) nor METRO RAIL is the carrier.

It is a requirement of TFR that should the "Fire Danger Index" be too high (as advised by TFR), due to excessive hot, dry or windy weather, the steam locomotive will NOT be permitted to run and we will have to use a NG Diesel Electric locomotive. The PEAE acknowledges this requirement of Transnet Freight Rail and reserves the right to make this change, should it be necessary, even at the last moment.
